**Consulate General of India
Jeddah**

Public Notice

05 May 2020

In continuation to our earlier Public Notice dated 30th April, 2020 regarding resumption of partial consular services, it is informed that, due to unprecedented rush at the Consulate today by our nationals, some of whom turned-up even without prior appointment, the Saudi authorities have not agreed to our proposal for resumption of consular services from the Consulate. However, we are continuously pursuing the matter with them to allow partial resumption of consular services (with social distancing norms in place) for our nationals residing in the Western region of the Kingdom.

2. In view of above, the Public Notice dated 30.04.2020 is being kept in abeyance and consular services at the Consulate General of India, Jeddah are being suspended until further notice. Further information, if any, will be conveyed by way of subsequent Public Notices. The Consulate General of India, Jeddah would like to assure all the Indian nationals residing in the Western region of the Kingdom that valid travel documents would be issued to them to facilitate their travel as and when the flights to India become operational.

3. The Consulate General of India, Jeddah would like to appeal to all Indian nationals residing under the Consulate's jurisdiction to comply with the directives issued by the Saudi Ministry of Health and other law enforcement agencies regarding safety precautions to be taken to check the spread of COVID-19.
